Connected to the world

What features do you need to solve your client's problems?

Until now, it was always necessary to use high-end digital hearing instruments to get the features that you want for your clients.

Neo, Connected to the world

Renew the connection between your client and their world.

- Open fitting with large vents
- Adaptive feedback cancellation
- Noise reduction
- Directional microphones
- Multiple programs
- Multiple channels
- Expansion
- Automatic telecoil
- Telecoil boost
- Push button control
- FM compatibility
- Reliable and accurate software

High-end features

High-end features are now accessible to everybody.

Neo has all of the essential elements to bring satisfaction to your client. Features that you once could only have in high-end hearing instruments are now available in the entry-level category.

Neo has:

- OpenFit™**
- Adaptive Feedback Cancellation**
- Adaptive Noise Reduction in 8 frequency bands**
- Directional microphones with active microphone matching**
- Multiple listening programs for different environments**
- 5 channels for maximum flexibility**
- Soft Noise Management™**
- Beep indicators for important functions**
- Automatic telecoil**
- Telecoil boost**
- Push button control of hearing instrument functions**
- Volume Control**
- FM compatibility**

✓ High-end fitting software

Open up a new world of fitting possibilities with the perfect combination of Neo and OASIS plus.

The high performance fitting software platform to ensure a perfect fit every time.

Intelligent software makes your job easier.

- ✓ First fit in as few as 3 mouse clicks
- ✓ 5 channel fitting accuracy with 5 MPO controls

LINK

Neo and OASIS plus, the perfect combination of advanced hearing instruments and high performance fitting software

High-end benefits

Improved hearing in noisy situations

- Directional microphones with active microphone matching, proven technology to enhance the perception of speech in noise
- Adaptive Noise Reduction in 8 frequency bands to improve listening comfort and reduce fatigue
- Compatibility with ear level FM equipment such as LEXIS

Optimal hearing for any environment

- Multiple listening programs that can be easily customized for any need
- Soft Noise Management™ to reduce the intrusiveness of every day environmental sounds
- NAL NL1 fitting rationale, adjusted to your client with the Client Experience Level

Comfort

- ✓ OpenFit™ to reduce the occlusion effect and give a natural sensation of hearing
- ✓ Adaptive Feedback Cancellation, an automatic active feedback cancellation system to search for and eliminate annoying whistling
- ✓ 5 channels with independent controls to ensure that sound levels are comfortable

Ease of use and reliability

- ✓ European quality and design
- ✓ Easy to use program selection with a push button
- ✓ Intelligent beep indicators for hearing instrument functions

High-end benefits

Problem free fittings

- Easy to fit and powerful fine tuning with the TriQualizer™
- Adaptive Feedback Cancellation without a reduction of high frequency gain, to preserve speech intelligibility
- OASIS plus has a proven track record of stability and reliability

Easy to explain

- ✓ Push button, for effortless access to hearing instrument functions
- ✓ Intuitive program handling, with beep indicators
- ✓ Intelligence in the design and implementation of the features

Great value for money

- ✓ Neo, the best price/performance ratio in its class
- ✓ High-end features to address the concerns of your client
- ✓ Opportunity for you to attract more clients

Neo has tangible client benefits

High-end client benefits

- Great sound quality
- Listening comfort
- No occlusion
- No whistling
- Speech understanding in noise

High-end features

- Innovative technology
- Adaptive Noise Reduction
- OpenFit™
- Adaptive Feedback Cancellation
- Directional microphones, FM compatibility

Features that were once too expensive for many of your clients are now accessible.
